OBJECTIVE

Enthusiastic and creative third-year engineering student with a strong passion for front-end development and design. Skilled in using Figma for UI/UX design, proficient in HTML, CSS, and JavaScript for creating responsive websites, and experienced with Canva for graphic and visual content creation. Seeking to leverage my design and development skills in a non-industry professional environment to contribute innovative solutions and enhance user experience. Committed to continuous learning and delivering high-quality results.

EDUCATION

College Name: Adhiparasakthi Engineering College
Melmaruvathur, chengalpattu

2023-2026

Degree: Bachelor of Technology in Information Technology

Current CGPA:8.7

School Name: St.joseph 's Matriculation Higher Secondary School
Acharapakkam

Current CGPA:8.6

PROJECTS

1. Empathy Chatbot

Built a sentiment-based chatbot that detects user emotions from text input and recommends suitable music based on mood

Technologies Used: Python, streamlit

2. Book Recommendation System

Developed a website that recommends over 1000 books based on user preferences using a simple recommendation engine.

Technologies Used: python,html,css

3. Career Path Predictor

Created a system that analyzes resumes to suggest job roles, required skills, and personalized learning paths.

Technologies Used: python,html,css

CERTIFICATIONS

1.Java Programming - Completed a beginner course in Java programming

2.Frontend Development Internship - 1-week internship focused on HTML, CSS, and UI design

3.Prompt Engineering by HCL Technologies - Learned prompt design techniques for AI tools

4.AI Awareness Program (Chatbot Development) - Participated in a program focused on chatbot concepts and implementation
